## About the eBook

This atlas covers basic as well as novel information on the retinae of various representative vertebrates including fish, amphibians, reptiles, birds, and mammals. The book consists of over 200 illustrations with brief descriptions pointing out special features of each retina displayed.

### Contents

- ▶ Comparative Retinae and Visual Cells
- ▶ Other Retinal Layers - From Development to Maturation (A Chicken Model)
- ▶ Developing Retinae of Different Species
- ▶ Degeneration
