Hemolymph Proteins and Functional Peptides
Recent Advances in Insects and Other Arthropods (Volume 1)
www.benthamscience.com/ebooks/9781608054015

About the ebook
This e-book elucidates the physiological role, both at biochemical and molecular levels, of hemolymph proteins and functional peptides in reproduction, development, homeostasis, hibernation, migration, immune system, and in abiotic stress tolerance of insects and other arthropods.

Contents

- Supportive Members
- Hemolymph Lipoproteins: Role in Insect Reproduction
- Adipokinetic Hormones and Their Role in Lipid Mobilization in Insects
- Dynamics of Storage Proteins in Lepidoptera
- Immune Response of Insects and Crustaceans
- Cardioactive or Inactive Neuropeptides of Insects
- Insulin-Related Peptides in Insects and Other Arthropods
- ENF Peptides
